

CareRide Program

Having trouble finding a ride to a medical appointment?

CareRide is a subsidized transportation service for non-emergency medical appointments, offered by AgeSpan, for anyone 65 plus who resides in the Greater Haverhill or the Greater Lowell areas.

CareRide provides on-demand transportation to doctors' appointments and health and wellness programs when no other transportation options are available. The program uses Lyft to provide transportation, depending on the consumer's need. The program is referral-based and all referrals for CareRide services are processed by the Program Coordinator.

If you live in one of the communities listed below, please feel free to reach out to AgeSpan or your local Council on Aging/Senior Center to find out more about this program:
