

Meet Our Alzheimer's Care Consultants For The **BILINGUAL DIRECT CONNECT PROGRAM**

**Medghine
Stinfort**

Haitian-Creole

**Lisa
Carbonell-
Correa**

Spanish

The Alzheimer's Association® Bilingual Direct Connect program allows a clinician to connect their Hispanic and Haitian patient's caregiver to a Bilingual Dementia Care Consultant who will assist them in supporting and planning for living with a dementia diagnosis. Caregivers referred to the program will receive a call from the Dementia Care Consultant who will provide a care consultation followed by an individualized care plan with recommended action steps and caregiving tips specific to their situation. The Dementia Care Consultant will provide a summary report outlining what was discussed and any recommendations back to the referring clinician for inclusion in the medical record. Follow-up is offered three more times over a six-month period.

Connect Caregivers with a Dementia Care Consultant to:

- Better understand a dementia diagnosis
- Develop strategies for navigating care decisions and challenges
- Identify available resources
- Make a plan for the future

CONTACT US

To make a referral, use our HIPAA Compliant form ([click here](#) or scan the QR code at right). Questions? Call **617-393-2130** or email directreferralmanh@alz.org.

A caregiver may leave a message for our Bilingual Care Consultants in Spanish or Haitian Creole by calling **857-356-3205**.
